

# Crematorium Services

Manufacturer and Installer of Refractory Products

CAPITAL REFRACTORIES

## Engineering at its Best

**Capital offers an extensive range of refractory products and services for the cremation and incineration industries.**

Our products have been developed in close cooperation with our customers and local councils.

We have a team of experienced engineers and authorised installers who can build and repair your cremators to your exact requirements.

Capital's product range is constantly evolving to meet new challenges. We can also supply a range of complementary products, thermal calculations as well as a total design package.

Please contact one of our experts, see overleaf, to see how we can help you.

Above and right, an example of works completed by Capital Refractories
